LinkedIn: @dillongirkar | GitHub: @Dillongirkar

Software Developer skilled in **React.js**, **Node.js**, and **Flutter**. Experienced in building scalable **web and mobile apps**. Expert at translating complex **UI/UX designs** into seamless user experiences and developing efficient back-end systems.

Education

St. Francis Institute of Technology

B.E. Computer Engineering, CGPA: 8.6

Mumbai University, Maharashtra

Jan 2021 - May 2024

Skills

Programming Languages: Java, Python, SQL, C++(basic), JavaScript, HTML, CSS, Dart, TypeScript.

Frameworks / Databases: Flutter, ReactJs, NextJs, NodeJs, ExpressJ, MaterialUI, TailwindCSS, MongoDB, PostgreSQL.

Cloud: AWS, Vercel, Docker.

Tools: Android Studio with SDK, MongoDB Compass, Postman, Git, UI/UX Designing with Figma.

Key Strengths: Leadership, Communication, Attention to Detail, Problem-Solving, Team Collaboration.

Projects

Planty - A plant store Application GitHub: github.com/dillon0007/Planty

- It is a plant store application with user authentication and relevant features.
- Developed a visually appealing and responsive user interface using Dart programming language.
- Implemented user interface which can view the products.

Tools: **Flutter, NodeJS, ExpressJS, Firebase.**

Werkera - GitHub: github.com/Werkera/werkera

- A Freelancing Application where Local Workers and Customers Connect with each other.
- Developed a Flutter based cross platform application with Node.js as Backend.
- Developed Smooth UI/UX along with easier user onboarding

Tools used: **Flutter, NodeJs, ExpressJs, MongoDB.**

Flourishing Vision - GitHub: github.com/dillon0007/FlourshingVision_store

- It is an augmented reality website that can view the products in 3D and augmentation view.
- The model viewer library is used to view the product in a virtual area.

Tools used: **NextJs, ReactJs, MongoDB, TypeScript, Cloudinary.**

Cloud IDE

- It is a code ide which store the code and data in different instances and gives the output efficiently.

Tools used: **ExpressJS, Java Script, Docker**

Certifications

- **React with Redux and Libraries** - St. Francis Institute of Technology College
- **Cybersecurity-A beginner Course** - Linkedin Learning Community
- **Flutter-A complete Guide** - Youtube
- **Devops Bootcamp** - Kunal Kushwaha Youtube Community

Contest Participation

- **VCET Hackathon Participation**

Topic - **CRM(Customer Relationship Management)**

GitHub - github.com/lisbangonsalves/03-Decryptors

Tools - **EJS, Javascript, CSS, MongoDB**

- **Pragati - A business Model Competition**

Topic - **Workers - A Worker Customer Management Application**

GitHub - github.com/Werkera/werkera

Tools - **Flutter, MongoDb, NodeJS, ExpressJS.**
